PROPOSAL · FOR A VENTURE FUND IN THE GULF OR SINGAPORE

Eight weeks on site: the plan

4 January to 26 February 2027. First screens and sourcing for your team, with every call I make dated and scored.

1 WHAT YOU GET

10

ranked digests. About 150 companies screened against your thesis, each number marked as company-reported or my arithmetic.

24h

to any memo. Two pages, five parts: the company, the market, why now, the biggest risk, the call. A founder file for each company you want to meet.

1

scored record. Every prediction with its probability, date and outcome, and a handover so your team keeps the system after I leave.

2 WEEK BY WEEK

Week 1	**Learn how you decide**	Your thesis and your last 20 decisions, yes or no. I set the sourcing agent to them and report on Friday how often it agrees with you, and where it does not.
Weeks 2 to 6	**Source and screen**	A digest every Monday and Thursday. Founder files before first calls. Memos on request. I sit in on calls if that is useful, and write the note the same day.
Week 7	**Keep score**	Every call I made, against what happened. Which of your filters cut companies you later liked.
Week 8	**Hand over**	The agent, set to your thesis, with a one-page guide. It keeps running without me.

What I need from you

- A desk, and one person to report to.
- Your thesis, and 20 past decisions.
- Thirty minutes a week of a partner's reaction to the digest. That is what makes it yours.
- An NDA, if you use one. Everything I see stays with you.

What it costs

- A stipend at your usual rate for interns.
- I pay for my own flights and visa fees.
- No fee for the tool. It is mine, and you keep your configured copy.
- If week one shows it is not useful, we stop there.

3 THE PERMIT

UAE	**Temporary work permit**	Sponsored by your entity for the eight weeks. Usually two to four weeks to issue; I plan for six.
Singapore	**Training Employment Pass**	For students on an internship tied to their course. IIM Bangalore provides the letter.
Saudi Arabia, Qatar	**Work visa**	Needs biometrics in India, so it takes longer. The earlier we start, the better.

Your HR or PRO will know the exact route for your entity. I will not work on a visit visa.

4 SAYING YES TAKES THREE STEPS

1. You reply "yes"
with the name of the entity that would host me, by 5 December.

2. I send my papers
the same day: passport copy, photo, CV and the IIM Bangalore letter.

3. You issue the offer letter
with the dates and the role. We file by 7 December. I start on 4 January.

Not sure yet? Send me your thesis. Three companies with dated calls reach you within 24 hours, and you can judge the work before the person.
